# Jte!

## Problem Statement

- Many customers feel that they are paying for services they don't fully utilize or lack options that fit their unique requirements.
- They often find it difficult to compare plans due to complex pricing structures, hidden charges, and unclear terms and conditions.
- Major players have been slow in integrating new technologies

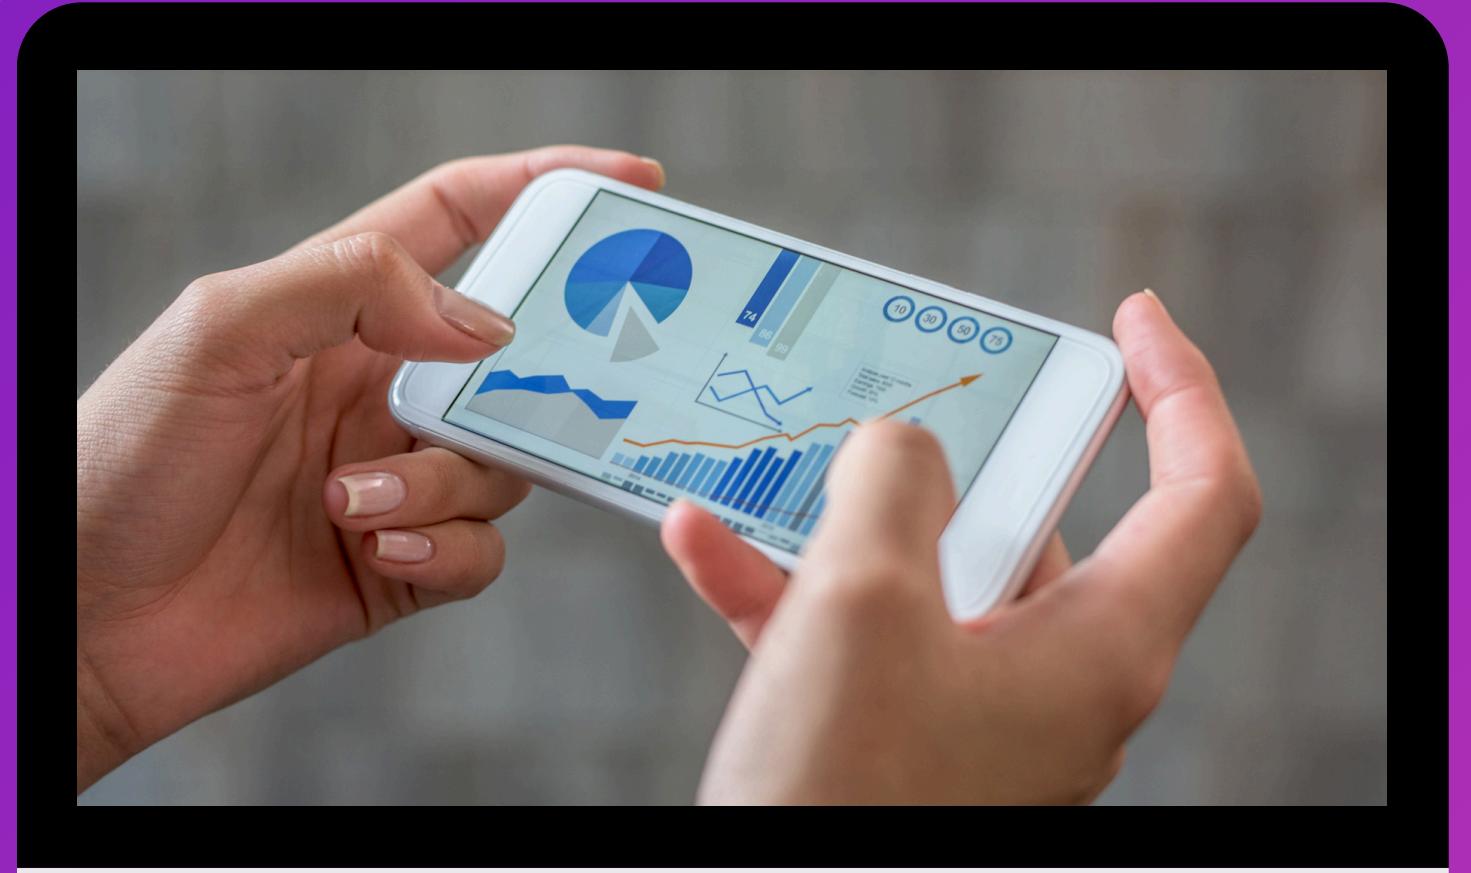

# Proposed Solution

- Our platform includes features like data rollover, international roaming, and specific app data packs (e.g., social media packs).
- Affordable plans for rural and semi-urban customers, ensuring ease of access and coverage in remote areas
- Easy recharge through integration with popular digital wallets and UPI payment systems, ensuring a smooth and secure transaction process.

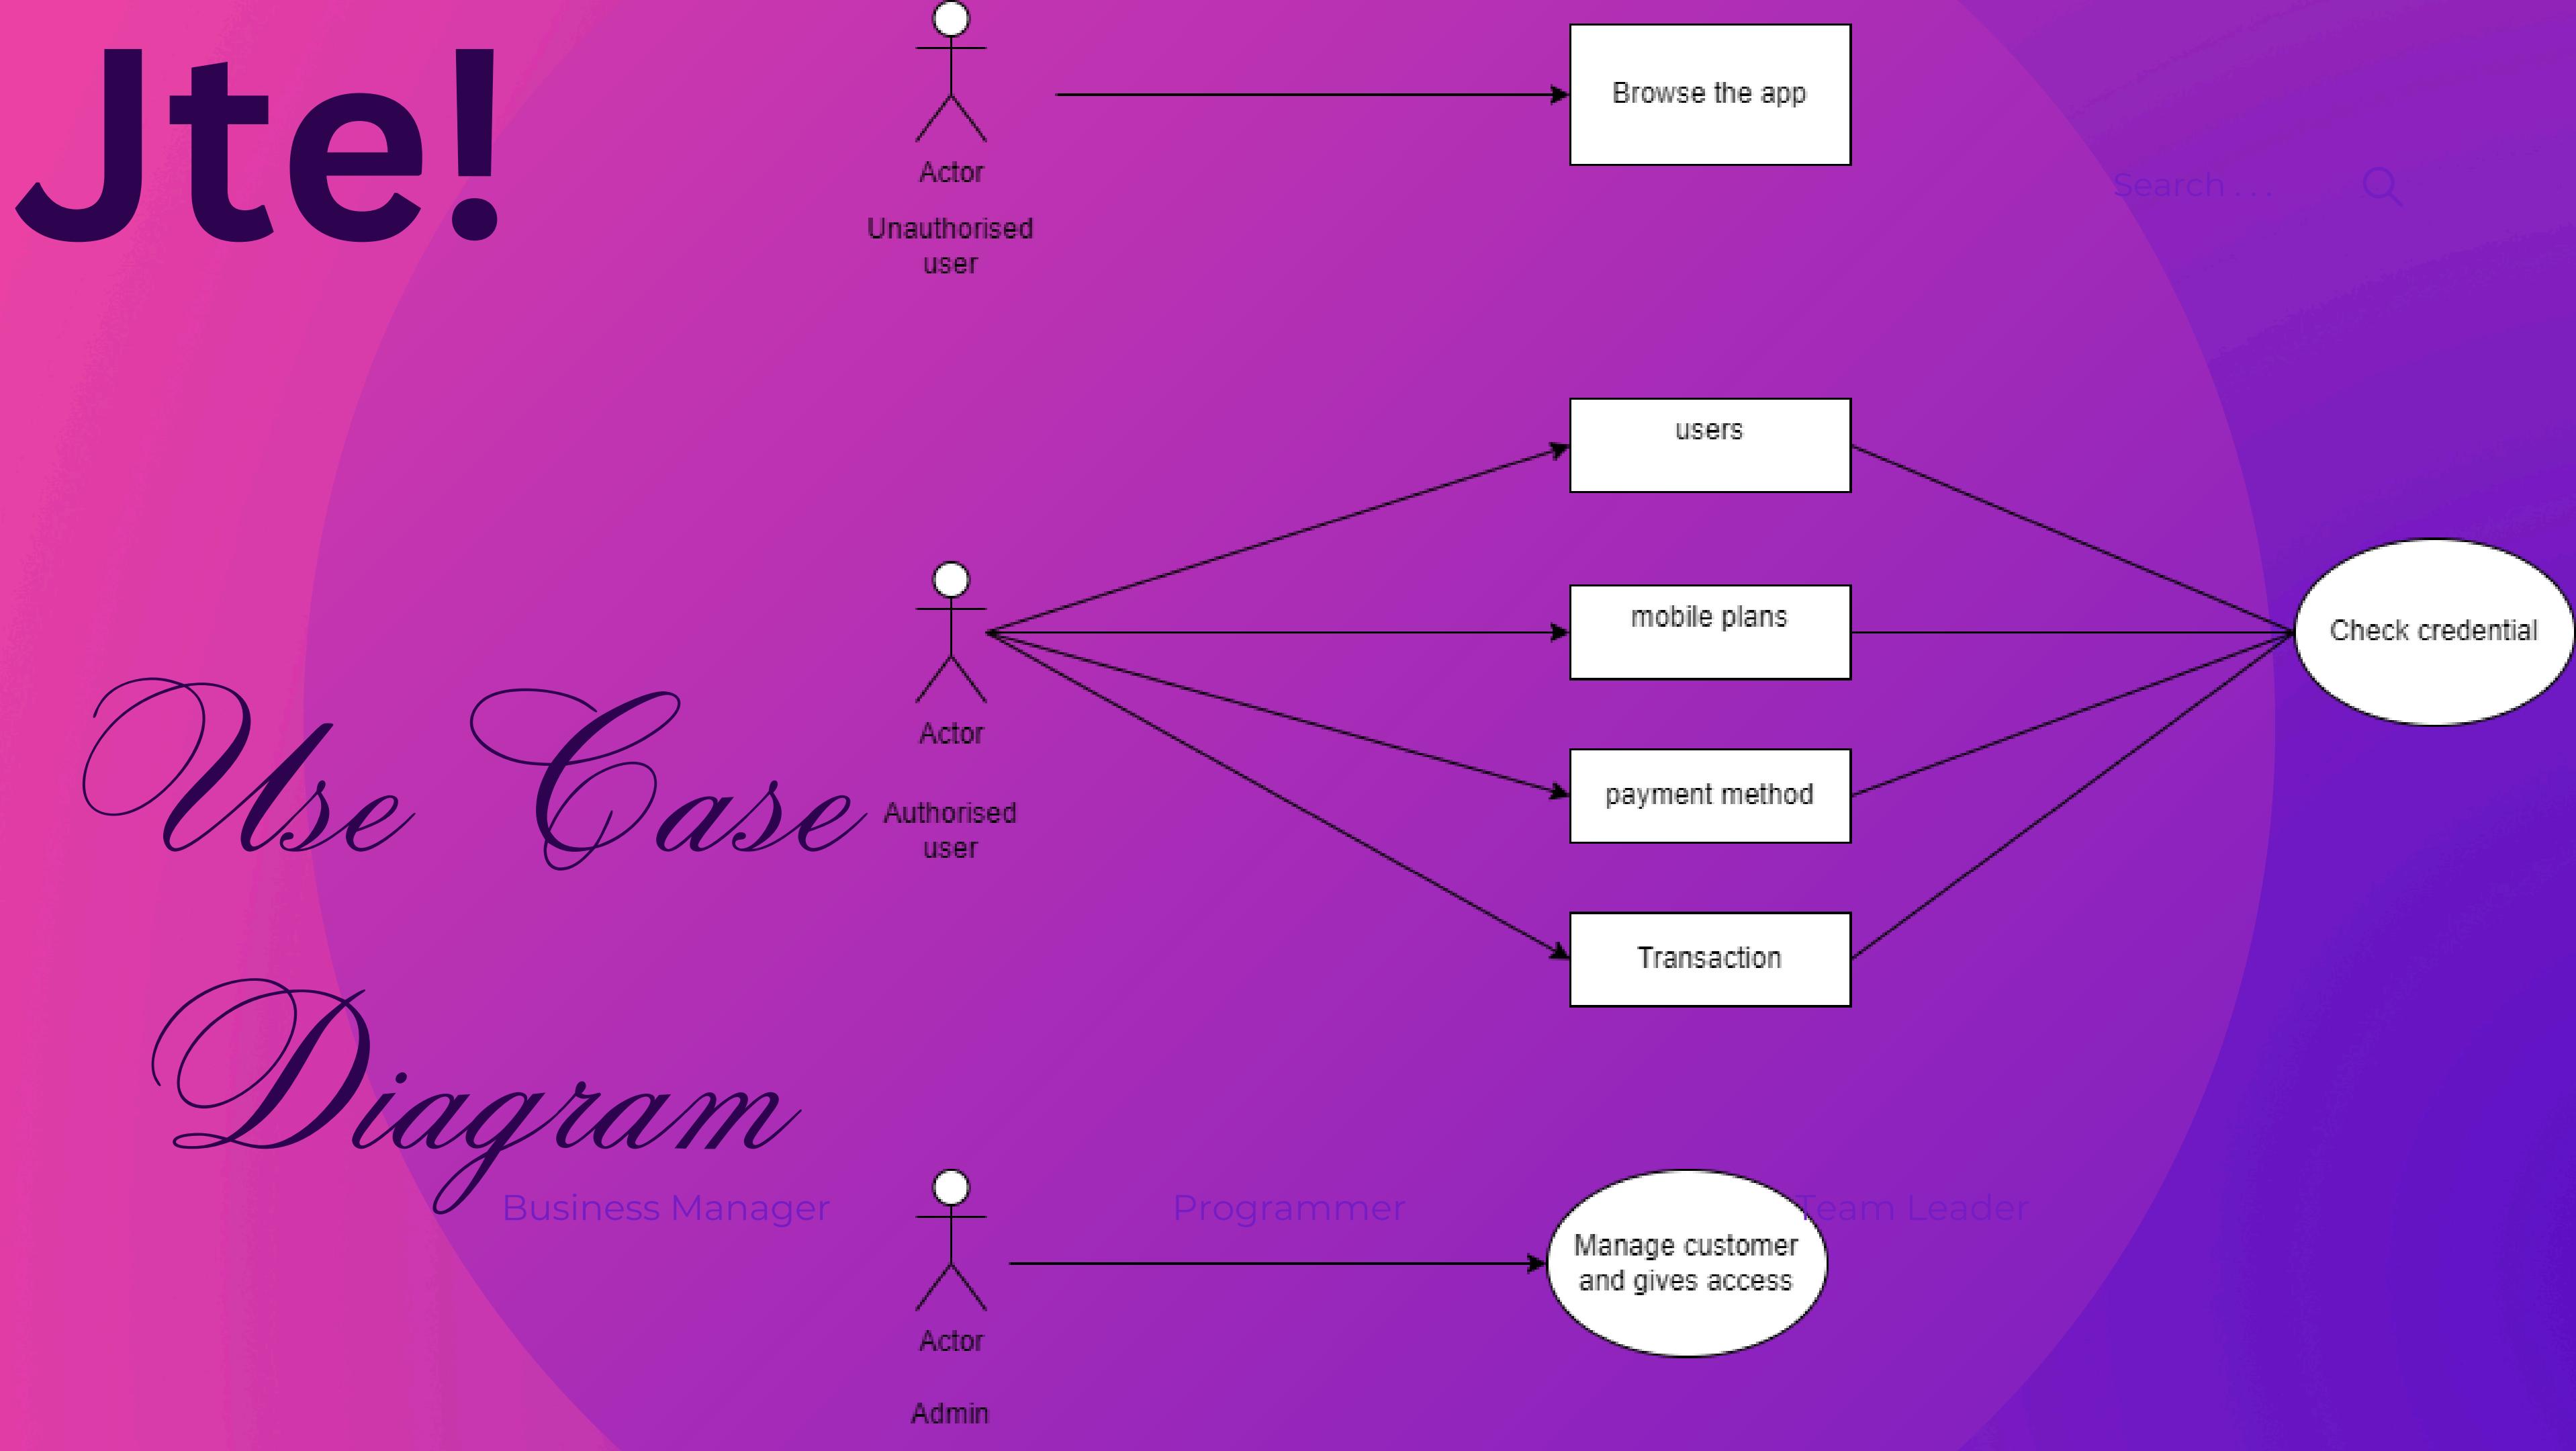

# Our Features

- Offer 24/7 customer support
- Clear and straightforward pricing structure
- Affordable plans specifically for rural and semi-urban customers
